

RosettaNet Malaysia Solution Providers Forum

26 th September 2006 – RosettaNet Malaysia organized its first solution provider forum and is exclusively for RosettaNet Malaysia solution providers. The objective of this forum is to provide all the solution providers an opportunity to understand RosettaNet grant application in term of procedure and process. Besides we will share with the solution providers the current market opportunities and our strategy to drive the RosettaNet implementation in Malaysia .

For this forum, RosettaNet Malaysia has the honors to invite Encik 'Azra'i Shu'ib, Director of SMIDEC Northern Regional Office and Encik Sabir Hassan, Manager in Strategy Planning Division of SMIDEC Headquarter to attend this forum.

This was a fruitful forum for our solution providers as SMIDEC has shared with our solution providers on financial assistance which will help the SME to develop their current business in order to compete globally. Apart from the sharing by SMIDEC, we also had an open discussion for all solution providers to share their experience and the challenges they faced in the market.

As a recap for this forum, Encik Azrai urged all the solution providers to understand the local company's requirement and the RosettaNet Technology know-how. From all these criteria, they should propose a total solution by leverage the RosettaNet standards to improve the company business process in order to compete with global. RosettaNet Malaysia and SMIDEC will corporate with solution providers in promoting RosettaNet standards to the local companies and MNCs
